

# FACULTY DEVELOPMENT PROGRAMME (FDP)

Curriculum Building for Business Analytics & Data  
Science in Association with SAS India Academic program

## Dear faculty members

There has been an increasing demand in the industry for the data scientist and this has necessitated the change in the curriculum in the universities to cater to the data science in the curriculum. This will help the students to understand and adopt the data science into various fields. Participating faculty members will discover trends & best practices from data scientists and learn from the experiences of Industry experts.

## This FDP is designed to help you to :-

- Design and modify the academics programmes for inclusion of data science into the curriculum
- Include the advanced analytics into the courses of universities
- Enable students to earn industry validation by offering SAS Global Certification in the areas of Data Management, Advanced Analytics and Data Science as part of your curriculum
- Increase the employability for students
- Get better profiles for the students for placements

## Pedagogy of FDP:

- Lectures coupled with presentation by expert from SAS
- Hands-on session on data science using SAS
- Industry specific examples and discussion
